NOTE: Taxable sales in Virginia include all items covered by the State sales and vending tax. Numerous sales are excluded or exempted. Among are sales of certain motor vehicles, trailers and semi-trailers, mobile homes and travel trailers, and sales of certain motor vehicle fuels. Effective July 1, 1992, the sales of alcoholic beverages in ABC stores are no longer exempt from the sales and use tax. The legislation eliminating this exemption directed that all such revenues be deposited into the Commonwealth's general fund.

The 2001, 2003 and 2004 figures are based on corresponding year taxable sales figures and the 2001, 2003 and 2004 Provisional Estimated Population figures.

NOTE: The information above excludes permits issued for mobile homes, garages and other out-buildings, additions and renovations, and commercial construction. The above building permits are categorized by type of building (single-family, duplex, 3-4 unit structures, and 5+ unit structures). For multi-unit structure, the data includes the number of units permitted rather than the number of buildings.
